N.B.—For explanation of certain terms used in the tables please see overleaf.

\* Includes both District Board and Municipal Funds.

† Includes expenditure on buildings.

‡ Revised owing to the exclusion of Burma figures.

## EXPLANATIONS.

1. *School Year*.—In these tables the school year is assumed to coincide with the financial year, i.e., to extend from April 1st of one year to March 31st of the next, though in actual practice some institutions, e.g., Anglo-Indian and European schools, may close in December and others, e.g., colleges, in May.

2. *Recognised Institutions* are those in which the course of study followed is that which is prescribed or recognised by the Department of Public Instruction or by a University or a Board of Secondary and Intermediate Education constituted by law and which satisfy one or more of these authorities, or the case may be, that they attain to a reasonable standard of efficiency. They are open to inspection and their pupils are ordinarily eligible for admission to public examinations and tests held by the Department or the University or the Board.

3. *Unrecognised Institutions* are those which do not come under the above definition of recognised institutions. They are for the most part indigenous institutions for education of a religious character.

4. *Other sources* include income from endowments, subscriptions, contributions, etc.

5. *Classification*.—In Tables IV-A and IV-B, provision has been made for twelve school classes covering the primary, middle and high school sections. The figures for the lowest class in the primary section or school, whether called infant class, sub-standard A, preparatory class or class I, should be entered against class I in the table and the figures of the succeeding higher classes should be shown against Classes II, III, IV, etc., upto the end of the school course without any break in the sequence of classes. Should the number of classes be less than twelve in a school, the figures of the top class should be shown against Classes XI, X or IX according as the total number of classes is eleven, ten or nine, and so on. Where the number of classes exceeds twelve, the figures of the additional classes should be shown after Class XII for each class separately. The figures of the intermediate classes of Intermediate colleges should not be shown under "school education", but should be entered against 1st year and 2nd year intermediate classes under "university and intermediate education". As a general rule, the duration of each class is taken to be one scholastic year.

6. *Intermediate colleges and examinations*.—An "Intermediate college" means an institution preparing students for admission to the degree courses of a University or for entrance into vocational colleges. The intermediate examination means an examination qualifying for admission to a course of studies for a degree.

7. *Anglo-Indian and European Scholars* are included in the General Summary and General Tables II-A and B, IV-A and B, V-A and B, VIII and IX. The expenditure on Anglo-Indian and European Schools is included in the General Summary and General Tables III-A and B. Teachers in Anglo-Indian and European Schools are included in Tables VI-A and B.

8. All statistics refer to Recognised Institutions only, except where side-headings for Unrecognised Institutions are entered.

9. In Tables IV-A and B and V-A and B, the top-heading "Hindus" may be subdivided into such necessary sub-headings as may be considered suitable in each province, e.g., "Higher castes" and "Depressed" or "Backward classes", or "Brahmins" and "Non-Brahmins", etc. [In the consolidated tables for all India, all Hindu Scholars will, however, be entered in one column only.]

10. Table X is prepared at the end of each Quinquennium and gives figures for the last year of the Quinquennium only.

11. In calculating the expenditure from Government, District Board or Municipal Funds, entered in Tables III-A and B and other expenditure tables, all payments or contributions from fees and other sources, which are credited to such funds, should be deducted.

## Explanatory notes :—

- (1) Figures for urban areas (i.e., municipal, cantonment, notified and small town committee areas) are excluded from this table.
- (2) The expenditure on institutions includes expenditure on buildings and miscellaneous charges incurred on the schools.
- (3) The total number of pupils from rural areas, who are under instruction, is shown in column 11 of Tables IV-A and B and V-A and B.
- (4) This table includes statistics relating to training schools, whether situated in urban or in rural areas, in which the majority of the students are being trained for employment in rural areas. It does not include the returns of training institutions located in rural areas, the majority of the students in which are trained for schools in urban areas.
